STANBRIGII
EMBRYON RELIMATVM,

SEV

Vocabularium Metricum olim à Iohanne *Stanbrigio digestum, dein à Thoma Newtono aliquantulum repurgatum.*

Nunc vero locupletatum, defæcatum, legitimo, nec non rotundo plerumque carmine exultans, & in majorem pueritiæ balbutientis usum undequaq; accommodatum,

extremâ operâ & industriâ

Ioh: Brinslæi.

LONDINI

Excusum typis *T. Cotes*, impensis *Tho. Knight*: & venales prostant a *Tho. Alcharne* in Cœmetrio Paulino, ad insigne viridis Draconis.

1633.

Lectori Candido.

ECCE tibi hic Stanbrigium, *qui dudum podagrâ laboravit, iam demum erecto tripudiantem pede. Quod si aliquoties ad huc vacillare videatur, mirandum non est; â tam gravi etenim morbo non nisi pedetentim datur invalescere. Vt ut est, at dignus saltem est, cui venia detur, medicus, qui dum vitam* Stanbrigio *meditatur, amittit suam: Ita quidem ut aliis usui esse posset, ut rei præsertim publicæ consuleret, de se semper parùm sollicitus fuit. Versibus profectò (ut apertè dicam) impar fuit illa provectior & ingravescens ætas, verùntamèn cum pueris pueriliter lusit, idq; non illubenter: adeò nihil unquam recusavit overis indefessus senex quo utilitati publicæ consultum iret. Quàm olei semper liberalis (ne dicam prodigus) fuerat, testantur satis volumina haud pauca inter quæ consenuit, hæc quidem musis non ingrata, illa Ecclesiæ gratissima. Quàm neutiquam in senectute parcus fuisset, lucubrationes hæ puriles inter quas extinctus est, modò diuturniorem paulo huius lucis usuram illi Deus indulsisset, testatum reliquissent. Verùm quorsum istæc (inquis) in re tam levi inanis curiositas? Parùm est si pedibus laboret Stanbrigius, qui cæterò quin cordatus est & integer: Nihil est si carmina in puerulorum gratiam concinnata, rotundè modò fluant, subinde claudicent. Esto: ego planè tecum sentio. Quin reputes paulisper velim, quòd cum imitatrix admodum sit puerilis indoles, facilè cum claudicante Stanbrigio vnâ claudicabunt; quicum arrecto pariter incedent pede. Quin & novimus universi sigilla, quæ ceris molliusculis nullo negotio imprimuntur, si quando obdurverint, quàm ægrè, quam nunquam excidant: & latere non potest quantam docenti pariter & discenti molestiam creabunt anticipata falsisq; νοήμασι obstructa juvenum ingenia prius quàm veritati hospitium præbeant. Nec tamen leve censeri debet si vocum quantitates puerorum animis unà cum lacte nutricis, ipsis nè vel somniantibus quidem, guttatim instillentur: adeóq; recens illa mentis testula suavi illo thymiamate perfundatur, cuius odorem in omnem usq; vitam sit redditura. Habe ergo tibi* Stanbrigium (*audacter dicam*) *verè relimatum, ubi si vocum quantitates spectes, en tibi Smetium: si Declinationes, Conjugationes, genera singulis vocibus apposita, ecce tibi in manibus*

Grammaticam, dictionarium vale.

An advertiſement to the Reader.

FOr the full underſtanding of the letters and figures over the heads of every word: Note that the Declenſions, Genders, & Nownes if they be ſubſtantives, are noted with figures and letters, where the figures ſhew the Declenſion, the letters the Gender: If they bee Adjectives of three terminations, *bo.* ſheweth them to be declined like *bonus*. If of three Articles *fel.* ſheweth them to be declined like *Felix.tr.* like *Triſtis*. Where *pl.* is added, it noteth that word to have onely or uſually the plurall number. Verbs are marked with figures, and the letter *C.* doth ſhew their Conjugations.
